## Why should you study this course?

It might sound like a cliche, but studying art encourages us to find beauty in the world around us - however challenging that may be at times. Yes, it certainly helps to develop critical thinking and interpetative skills, but it is this sense of self-expression that is at the subject's core. In Art A Level we work both independelty and collaboratively, but always seeking to hone our individual identity and our expression of it. As part of this, we find our own work mediated through that of other artists and one of the pleasures of the subject is to take the time to appreciate and interrogate some of the finest and most dynamic artwork that has been produced. What a wonderful way to spend your time in school!

## What are the entry requirements?

In addition to the general entry requirements, you will need a grade 7 or above in GCSE Art to study this course.
